

on the Examiner to search all of the sequences at the same time. Therefore, it is requested that the Restriction Requirement and the election of species requirement be withdrawn.

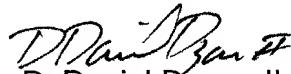

Also attached to this Response is a new computer readable copy of the sequence listing, a new paper copy of the sequence listing, and the appropriate statement under 37 CFR 1.821. While reviewing the specification to respond to the Restriction Requirement, it was noted that there is an error in the sequence listing for SEQ ID NO: 2. It was observed that the line entry <210> for SEQ ID NO: 2 contains a value of "1", rather than the correct value of "2." Therefore, the attached Sequence Listing has been amended to correct this error. No other changes have been made to the Sequence Listing.
